the Future together”

About Us

Since 2020, we have been providing eco-friendly solar solutions to the **Commercial, Residential, and Industrial** sectors. Over time, we have established ourselves as a reliable source for customized solar systems that are efficient, dependable, and budget-friendly. We are excited to announce that we have received certification from the **Alternative Energy Development Board (AEDB)**. You can trust that our solar systems meet the highest standards for quality and efficiency. Let us assist you in lighting the way towards a sustainable future and join the ranks of our delighted customers who have already switched to clean, renewable energy with us.

Mission

We're passionate about sustainability and believe in the power of renewable energy to make a difference for our planet. We're constantly working to be at the forefront of the industry by developing innovative solar solutions that can help you save money on your energy bills and give you more independence. We're excited to show you how easy it can be to make a positive impact on the environment while also benefiting your wallet!

Vision

Hey there! At Dpowered Solar Company, we're all about helping you harness the power of the sun to save money and reduce your carbon footprint.

Our goal is to lead the renewable energy industry by providing innovative solar solutions that are reliable, efficient, and cost-effective. We want to empower you, whether you're an individual or a business, to take control of your energy needs and make sustainable choices that benefit both you and the planet.

CEO Statement

“ Our team at Dpowered Solar Company is committed to using solar power to build a brighter, cleaner, and sustainable future. Our objective is to offer inventive solar solutions that empower our clients to manage their energy needs and reduce their ecological impact. ”

As the CEO of Dpowered Solar Company, I lead a team of skilled professionals committed to providing top-quality solar panels and systems. Our customized solutions fit your unique budget and energy needs while reducing your dependence on non-renewable energy sources. We believe the future of energy is solar and we're excited to be at the forefront of this transformation. Thank you for choosing Delta Energy, we look forward to serving you and making a positive impact together.

Benifits of Solar Systems

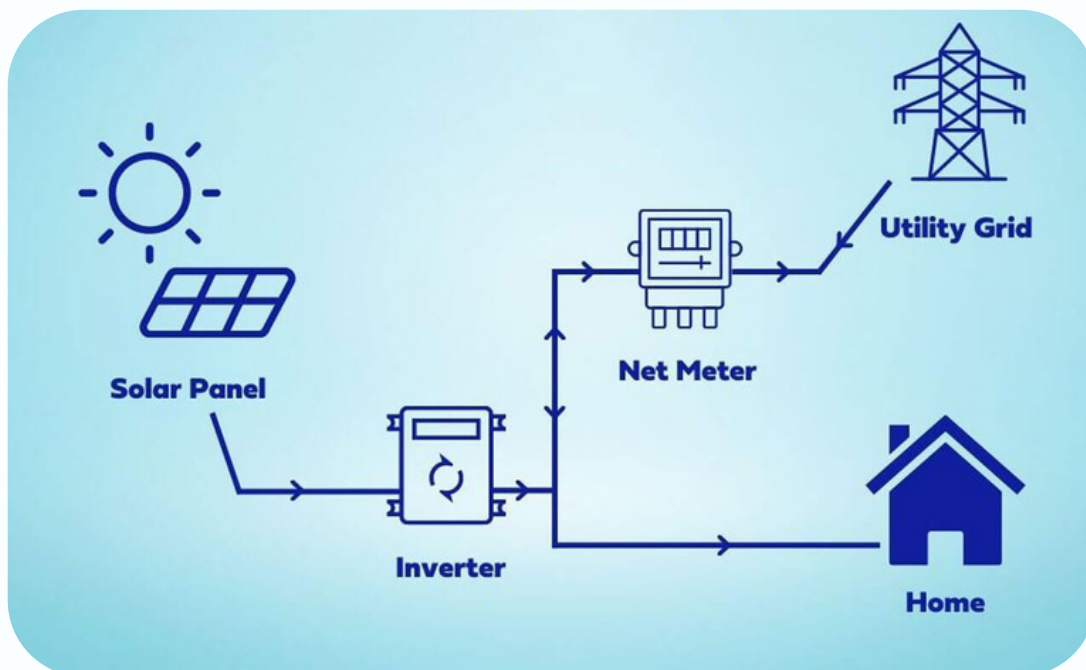

Types Of Solar Systems

On-Grid Solar System Net Metering System

And how this system works ?

Benifits of On-Grid System

- ✓ Redude your bills upto zero
- ✓ Export electricity via Net-Metering syste
- ✓ Works with-out Battery
- ✓ Return On Investment 3-4 years
- ✓ Load independent system

Online Wifi access (via Mobile App)

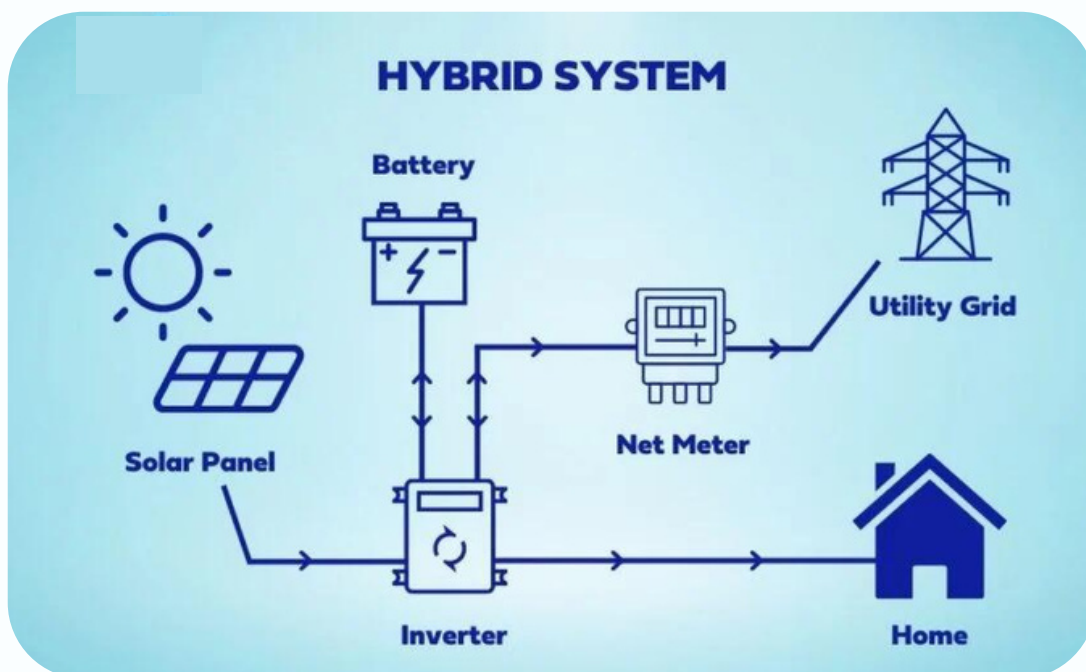

Types Of Solar Systems

Hybrid Solar System

And how this system works ?

Benifits of Hybrid System

- ✓ Net-/Metering with backup system
- ✓ Most reliable system
- ✓ Works with Battery
- ✓ 24/7 electricity backup
- ✓ Highly Recommended for those who need non-stop power supply

Online Wifi access (via Mobile App)

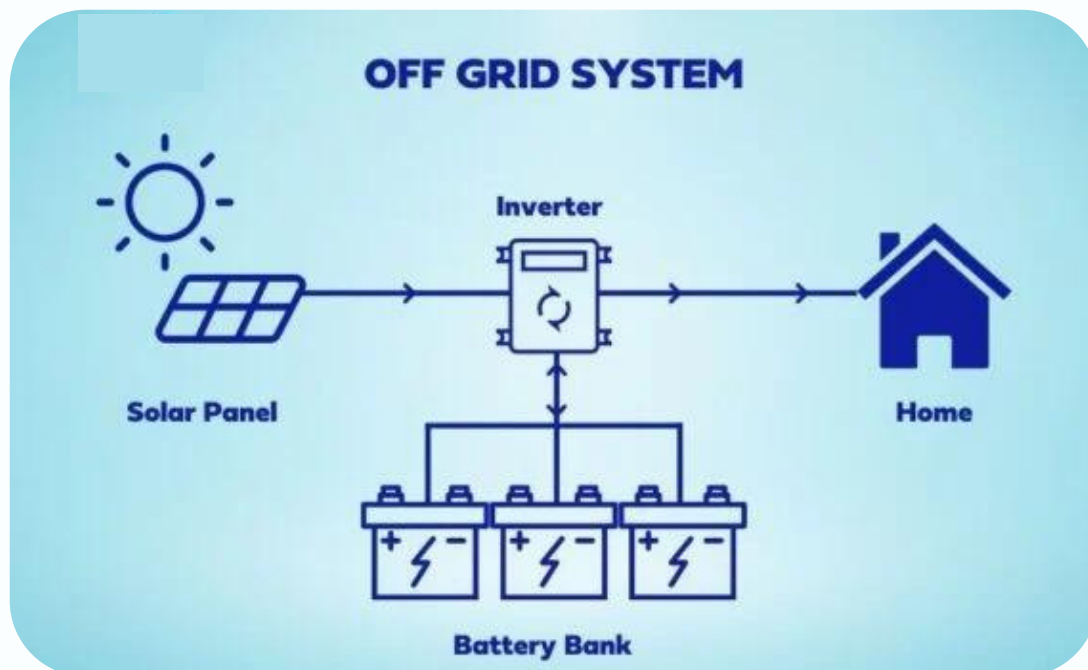

Types Of Solar Systems

Off-Grid Solar System stand alone system

And how this system works ?

Benifits of Off-Grid System

- ✓ Best solution for OFF-Grid Areas
- ✓ No low voltage issue
- ✓ No power cuts
- ✓ 24/7 backup
- ✓ Low cost system

Online Wifi access (via Mobile App)
